Tomas **Sierra Sanchez**

Systems & Computer Engineering Student

Bogotá D.C, Colombia

+57 311 775 5877 | t.sierras@uniandes.edu.co

Education

University of Los Andes (Universidad de los Andes)

Bogotá D.C, Colombia

Systems and Computing Engineering, Japanese Language and Culture

Graduation Date April 2027

University of Tsukuba

Tsukuba, Japan

Exchange Program, Tsukuba Trans Pacific Program

September 2025 – February 2026

- Experienced Japanese language and culture first-hand while studying areas both close and relevant to my major at home.

Experience

Nodo EdTech – University of Los Andes

Bogotá D.C, Colombia

Software Developer Undergraduate Research Assistant

April 2026 – Ongoing

- Contribute to full-stack development of the No Estas Solo web platform, working across both backend and frontend.
- Helped to maintain containerized services to support development and deployment of the platform.

University of Los Andes

Bogotá D.C, Colombia

Mastering Machine Learning Tutor

June 2026 – July 2026

- Helped with planning and workshop development for the class.
- Supported students by answering inquiries and grading workshops and projects.

Faculty of Engineering – University of Los Andes

Bogotá D.C, Colombia

Generative Artificial Intelligence Undergraduate Research Assistant

January 2025 – September 2025

- Helped develop tools using generative AI to enhance students' experience in various classes of the faculty of engineering with tools such as N8N Automation and OpenWebUI.
- Conducted in-depth research on prompt engineering to enhance the efficiency of these tools.
- Collaborated with university faculty and marketing teams to implement and test these tools in real-world scenarios.

University of Los Andes

Bogotá D.C, Colombia

Discrete Mathematics Teaching Assistant

January 2024 – June 2025

- Gave aid during practical exercises with students and offered support during test preparation by giving mentorships and aiding with student inquiries.

University of Los Andes

Bogotá D.C, Colombia

Algorithm Analysis and Design Teaching Assistant

August 2024 – December 2024

- Assisted in practical exercises with students and graded assignments and quizzes for the class.

Organization

Bogotá D.C, Colombia

Introduction to Programming Teaching Assistant

August 2023 – December 2023

- Aided the teacher during the practice workshops by solving students' questions and grading class projects.

Skills & Interests

Programming Languages	Python, Java, C++, C#, TypeScript, JavaScript, Swift, Dart
Frameworks & Tools	Next, Coolify, SQL, MongoDB, SpringBoot, Django, Flutter, XCode
Languages	Spanish (Native), English (IELTS 8.0 / C1), French (DELF B1), Japanese (Intermediate)
